

A Library, A School

Project Overview

"A Library, A School" is an initiative aimed at **equipping public schools** with libraries tailored for children **aged 3 to 12 years old**. The project will cover **all regions of Morocco**, starting with **areas affected by the September 2023 earthquake**, as well as **schools that currently have no books** in their establishments.

The goal is to provide students with **high-quality resources** that encourage reading as a **tool for both learning and enjoyment**, while adhering to **international book selection standards**.

Project Objectives

- **Equip 100 public schools** with complete libraries in the first phase,
 - **Provide children with access to diverse and age-appropriate books,**
 - **Strengthen reading culture** in an educational setting,
 - **Encourage writing and verbal expression** among students,
 - **Develop critical thinking and curiosity,**
 - **Reduce educational inequalities,** in alignment with the **United Nations Sustainable Development Goals (SDGs).**
- 

Library Content

Each school will receive a library containing **7 themed book sets**, corresponding to different educational levels (from preschool to 6th grade).

Each box contains a selection of 30 books, carefully chosen based on the following criteria:

- **Priority to high-quality Moroccan books,**
- **Selection based on international organization standards,**
- **Books must be legally printed and published,**
- **Works that combine modernity and tradition.**

Content Distribution by Age Group:

- **Preschool (ages 3-6):** picture books, introduction to letters and numbers, simple stories.
- **1st grade (ages 6-7):** short stories, basic math concepts, respect, and cooperation.
- **2nd grade (ages 7-8):** longer stories, first steps in comprehension and analysis.
- **3rd grade (ages 8-9):** introduction to critical thinking, ecology, and human values.
- **4th grade (ages 9-10):** more complex subjects, environment, energy, and history.
- **5th grade (ages 10-11):** literary and scientific texts, space, climate change.
- **6th grade (ages 11-12):** advanced texts on science, history, and values.

Associated Activities

- 📖 **Educational and recreational workshops** for students,
- 📚 **Teacher training** on how to integrate books into the classroom,
- 📢 **Promotion of reading for pleasure** through events and activities.

Expected Impact

- 🎯 **Encourage reading and learning from an early age,**
- 🎯 **Develop analytical, writing, and verbal communication skills,**
- 🎯 **Support teachers with high-quality teaching materials,**
- 🎯 **Contribute to a more equitable and inclusive education system.**

Contribution

You can support the project by contributing to book funding:

 **Fund a few books: 200 to 500 MAD (equivalent to \$20 to \$50)**

 **Donate a set of 30 books: 2,900 MAD (equivalent to \$290)**

 **Equip an entire school: 20,000 MAD (equivalent to \$2,000)**

 **By bank transfer:**
